

ABOUT ORC's Corporate Health Directors Network

The ORC Corporate Health Directors Network includes corporate leaders in the field of occupational medicine, occupational health nursing and other fields, drawing members from the most innovative multinational Fortune 500 companies. Corporate health directors and other senior managers of occupational health programs attend meetings twice a year, in February and August.

The ORC Corporate Health Directors Network is the only forum of its kind, providing outstanding networking opportunities in a confidential environment. The professional relationships forged at member meetings provide the basis for ongoing benchmarking opportunities – assisting members in identifying best practices in the management of corporate occupational health programs.

MEMBERSHIP

Membership in the ORC Corporate Health Directors Network is available only to member companies who belong to the ORC Occupational Safety and Health (OSH) Group.

For more information on how to join contact
Ann Brockhaus at
ann.brockhaus@orcww.com

ADDITIONAL MEMBERSHIP BENEFITS

In addition to attending the group's meetings, members are entitled to other important benefits including:

- ❖ Regular updates on key issues through e-mail notices and postings to the ORC website that allow the members to be up to date with the latest developments in the field
- ❖ Access to a "members only" bulletin board where members can post requests for information on experiences with specific programs and policies and emerging issues of concern
- ❖ Consultation on regulatory and policy issues with ORC's experienced consulting staff
